Shown with optional cupola, weather vane and flower boxes
Larger windows - 30"x36" • Standard 88½" wall height

BACK YARD BUILDINGS BUILT TO LAST

WELCOME

We hope you're having fun today! We also thank you for taking the time to consider our full line of storage buildings. Since 1978, Stoltzfus Storage Sheds has been a manufacturer of quality storage buildings and garages. We are located in a beautiful valley in Center County, Pennsylvania and we distribute our buildings to retailers in many different states.

At Stoltzfus Storage Sheds, we manufacture back yard buildings which are built to last. Whether you choose one of our pre-designed models or a custom-designed building, we will make it to please you. In fact, this is so important to us, that **we promise you will love your new building, or we will make it right.**

We offer buildings in numerous styles and sizes, with a host of available options for customizing your building. Our back yard structures can be used for everyday storage, garages, workshops, offices, studios, garden potting sheds, play houses, lodges, cabins, chicken houses and more!

Each of our back yard structures comes standard with a limited 10-year warranty which we stand behind 100%.

We encourage you to take your time to find just the right building to suit your needs. We hope you can see the great value of placing your trust in our people and products. It will be a pleasant experience.

Have fun and enjoy today!

The Specifications

All buildings can be constructed with these sidings:

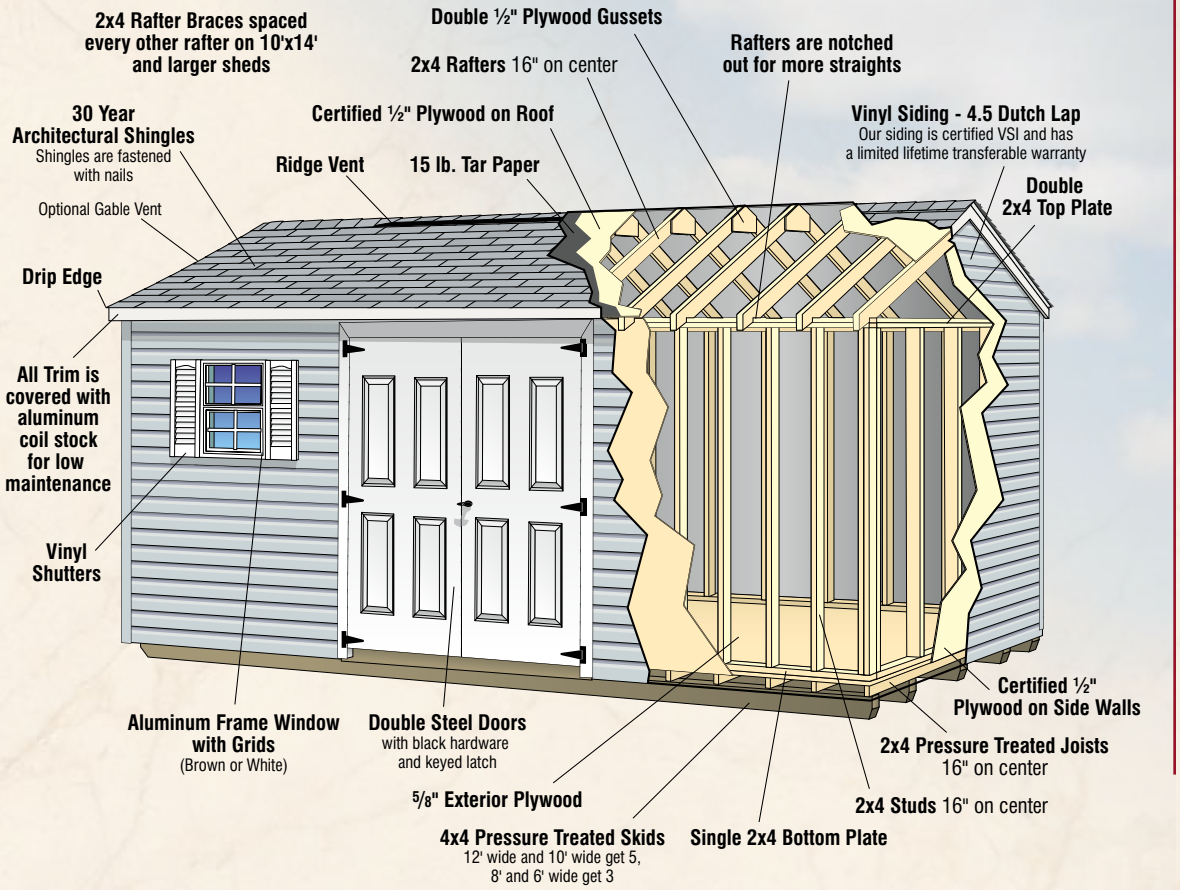
- Duratemp T1-11
- Vinyl 4.5 Dutch Lap
- Cedar Tongue and Groove
- Log Tongue and Groove
- Board and Batten

We also do custom sidings upon request.

Recommended Site Preparation:

4 - 6 inches of 3/4" modified stoner base. Use 4x4 or 4x6 pressure treated timbers around perimeter of stone. Level stone evenly to top of the timbers. Make stone base 12" wider and deeper than the size of your building.

NOTE: Site MUST be level for proper door function.



Skid Layout
